U.S. Pat. Publication 2002/0003289 has been considered.

The arguments regarding the rejection of claims 9-12 under 35 USC 112, first paragraph, are moot in view of applicant's amendment of claim 9.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 6,7,13,14,15 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maruo '090 in combination with Mizutani '128.

The rejection is maintained as stated in the paper mailed 5.21.03.

In response to applicant's arguments against the references individually, one cannot show nonobviousness by attacking references individually where the rejections are based on combinations of references. See *In re Keller*, 642 F.2d 413, 208 USPQ 871 (CCPA 1981); *In re Merck & Co.*, 800 F.2d 1091, 231 USPQ 375 (Fed. Cir. 1986). The teachings of Mizutani are combined with those of Maruo regarding placement of the field oxide regions.

In response to applicant's argument that the examiner's conclusion of obviousness is based upon improper hindsight reasoning, it must be recognized that any judgment on obviousness is in a sense necessarily a reconstruction based upon hindsight reasoning. But so long as it takes into account only knowledge which was within the level of ordinary skill at the time the claimed invention was made, and does not include knowledge gleaned only from the applicant's disclosure, such a reconstruction is proper. See *In re McLaughlin*, 443 F.2d 1392, 170 USPQ 209 (CCPA 1971). One of ordinary skill in the art would

have been motivated to look to secondary teachings regarding suitable methods of performing the field oxide formation step of Maruo. MPEP 2144.07.

Claim 8 is rejected under 35 U.S.C. 103(a) as being unpatentable over Maruo '090 in combination with Mizutani '128 as applied to claims 6,7,13,14,15 and 27 above and as follows.

The rejection is maintained as stated in the paper mailed 5.21.03.

Claims 28 and 29 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maruo '090 in combination with Mizutani '128 as applied to claims 6,7,13,14,15 and 27 above, and further in view of Iyer et al.

The rejection is maintained as stated in the paper mailed 5.21.03.

Claims 16,21-26 and 30 are allowed.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory

action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group Receptionist whose telephone number is (703) 308-0956. See MPEP 203.08.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner George Fourson whose telephone number is (703) 308-2544. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri, can be reached on (703) 306-2794. The fax number for this group is (703)308-7722 (or extensions 7724, 3431 or 3432) for regular communications and (703)308-7382 for after final communications.
